How it all works

Whenever you or your employees travel for business on Etihad Airways or on our codeshare partner Alitalia, the business earns Etihad Guest Miles, which can be redeemed for flights and upgrades, products from our Reward Shop, exchanged into cash or even donated to charity.

How your business benefits

- Save on business travel by exchanging miles for flights
- Arrive refreshed to your next business meetings when you exchange miles for seat upgrades
- Turn miles into cash or use them to buy products from our Reward Shop, including brands like Apple and Sony
- Support your business' CSR programme when you donate miles to your charity of choice

Our miles reward structure is very generous and is dependent on your choice of fare and class travelled
